Executive Director  
Peter McWatters

February 11, 2022

To: Citizens of Ottawa County  
Citizens of the City of Holland residing in Allegan County (served by the OCCDA)  
OCCDA Policy Board Members  
OCCDA Technical Advisory Committee Members

On behalf of the Ottawa County Central Dispatch Authority (OCCDA), I am excited to provide an update on OCCDA operations via our annual report. Calendar year 2021 continued to be a challenging time for all employees and organizations due to the COVID-19 pandemic. Ottawa County Central Dispatch Authority and our employees encountered many of the same challenges all organizations have faced. I am happy to report that despite these challenges, 2021 was a year of progress and growth for OCCDA as we look forward to several projects and a busy 2022.

The health of our staff and continuity of operations continued to be a priority as we adjusted safety protocols based on current COVID-19 trends and guidance by federal, state and local health organizations. I am proud to say that although we had staffing challenges at times, our operations were never compromised.

OCCDA was involved in several projects in 2021. Due to Muskegon and Kent Counties recently coming onto the MPSCS 800MHz radio system, Ottawa County police and fire agencies lacked radio interoperability with first responders in Muskegon and Kent counties. A countywide radio reprogramming initiative was undertaken to add Muskegon and Kent County talk groups to Ottawa County radios. At the time of this report, we are in the final stages of completing this project with the majority of Ottawa County radios reprogrammed. All data modems in police vehicles were replaced in 2021. This was projected to be a two-year project. We were able to complete the project in 2021 at approximately half of the expected cost due to finding a modem that had the functionality we needed along with a significant cost savings. Our transition from AT&T to the state wide Peninsula Fiber Network (PFN) for next generation 911 phone call delivery has been completed. To give us a redundant connection to the MPSCS system, in case our primary microwave connection fails, we completed work with the State of Michigan and Allegan County on a fiber connection to the MPSCS radio system. To help manage and optimize the numerous video feeds that we have access to in our center, we purchased software and hardware for a video integration system. Necessary work has been completed to bring our Grand Haven backup center to an operational status in case we need it due to our primary site being compromised.

Staffing continues to be our biggest challenge due to retirements and voluntary resignations for various personal reasons. Currently, there are several new employees in training. We will continue to grow our staff throughout 2022. Our training program has been restructured to assist with staffing needs and to better serve our trainees. Brad McDonnell was hired as our new Network Administrator replacing Joe LaLonde who retired after nearly 23 years with OCCDA. Joe left us a solid platform of updated hardware and software for Brad to build upon.

Executive Director  
Peter McWatters

February 11, 2022

Calendar year 2022 will be busy and challenging with several projects on the agenda. Some of the major projects are:

- Implement Tyler/New World programs ShieldForce (police) and CrewForce (fire). These programs will provide remote CAD access via smart phone or tablet to police and fire command staff and apparatus level CAD access for fire.
- Complete the reprogramming project of all Ottawa County police and fire radios to ensure interoperability with adjacent counties who recently transitioned to the MPSCS system.
- Purchase two new portable “Viper” 911 phones for remote call taking in emergency or high call volume situations.
- Continue to explore technology needs related to entirely remote call taking/dispatching for high call volume incidents and as a backup plan for our primary center.
- Install LED lighting on two radio towers to reduce electrical costs and negate the requirement to paint the towers.
- Install redundant AC units at the three tower sites that only have one AC unit. This is in case the primary unit fails, which happened at one of the sites last summer.
- Begin the process of selecting a 2023 MCT replacement for the police fleet. Current MCTs are end of life and the extended warranty on them expires in October of 2022.
- Install a new building security video system. Our existing system is the original and is out of date.
- Complete an updated job study to examine job descriptions, pay and benefits at OCCDA. The most recent job study was in 2017.
- Explore more favorable financing options/terms for our municipal lease with Motorola for the radio system originally purchased in 2016.

As we look forward to a busy 2022, we are proud of the relationships we have built and strengthened with our partner agencies over the previous year. Together, we have all faced unique challenges and have been able to navigate these challenging times with patience and grace. On behalf of all employees of the OCCDA, I want to thank the citizens and public safety agencies in Ottawa County for their continued support. We look forward to continuing to provide exceptional service to our citizens and emergency services providers in 2022 and beyond.

Sincerely,

*Peter T. McWatters*

Peter T. McWatters  
OCCDA Executive Director

# "PROVIDING EXCELLENCE IN 9-1-1 COMMUNICATIONS"

Ottawa County Central Dispatch Authority is committed to providing one point of contact for all emergency situations in Ottawa County. Central Dispatch is staffed 24 hours a day with Communication Specialists and Supervisors to ensure that calls are handled with urgency, and ensure the proper agency responds as quickly as possible. The staff is comprised of employees committed to serving the public during times of crisis, with courtesy and professionalism. Employees are trained and certified to provide pre-arrival first aid instructions over the phone as needed, until help arrives on the scene.

The Ottawa County Central Dispatch Authority provides emergency communication for all Police, Fire, and EMS agencies in Ottawa County. Funding is provided through a county wide millage. The current millage is 0.4400%, which was approved by the citizens of Ottawa County in August of 2008.

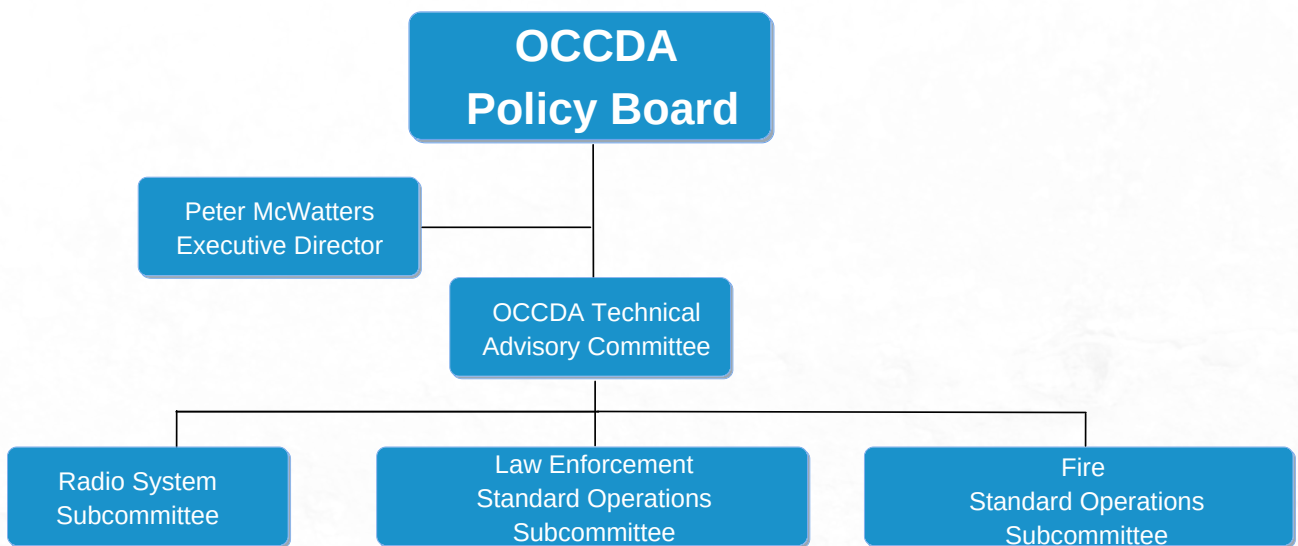

The millage was a renewal of the original 1998 millage, and was approved for an additional 20 years and expires at the end of 2028. The millage ensures stable funding for operations of the Ottawa County Central Dispatch Authority.

## MISSION STATEMENT

To serve as the communications link between the citizens, visitors, and public safety agencies of Ottawa County, by providing an effective method of accessing emergency services through professional and courteous public safety communication and dispatch services.

## CASUAL COMMUNICATIONS SPECIALISTS

Morgan  
Cisler

Katelyn  
Brower

Each year, an employee that excels in all areas of communications, dispatching, and EMD skills is nominated by their peers and selected by supervisors and management for their outstanding performance. Dispatcher Shonda Walski received this award in April of 2021.

## 2020 Telecommunicator of the Year Shonda Walski

Shonda is a 5 year employee with OCCDA and has 16 years of experience with her prior dispatch agency. She is a Certified Training Officer, CPR Instructor, a Lead Dispatcher, and a union representative. She received a life saver award in June of 2020 for providing life saving CPR instructions to a caller. Shonda has since been promoted to a shift supervisor in March of 2021.

Tracy Oomen  
15 Years

Mike Koetje  
15 Years

Elvita Lewandowski  
15 Years

Katie Coenen  
5 Years

Polly Hooker  
Polly left OCCDA with 18 years of service. She has made a career change and now works with veterans with the VA.

Meagan Ross

Meagan left OCCDA with 18 years of service. She recently completed her masters degree in Clinical Mental Health Counseling and has been working in private practice.

# OTTAWA COUNTY CENTRAL DISPATCH

Network Administrator Joe LaLonde retired from OCCDA on December 16th 2021 after 22+ years of service. Joe started with OCCDA in 1999 as the Network Administrator where he spent the duration of his career. Prior to working with OCCDA, Joe worked in the health care profession and Ottawa County. During his time with central dispatch, Joe oversaw every CAD update, helped with the first 56K MCT project, and made many network improvements. We want to thank Joe for his dedication to the agency!

Dispatcher Tammy Huff retired from OCCDA after 26 years with Ottawa County Central Dispatch. She began her career on the road with the Coopersville Fire Department in 1982 before beginning her career with dispatch. Tammy began working as a CTO in the early 2000s and has trained several employees including 16 of OCCDA's current employees. As an Ottawa County native, Tammy has shared her knowledge and enthusiasm for the job with all past and present employees who have walked through the door. She enjoyed approximately 90 days of retirement before deciding to return to OCCDA as a part time casual employee.

## 2021 Life Saver Awards

Lifesaver Awards are given to certified Emergency Medical Dispatchers (EMDs) who provide lifesaving CPR instructions to callers before police, fire, or ambulance service arrive on the scene. The recipients of the lifesaving CPR instructions must survive for more than 72 hours and several are still alive to this day.

**Polly Hooker**

**Daniella Hill**

**Morgan Potter**

Jenny Cleveland was presented a Stork Award on June 21st 2021. She provided delivery instructions to a caller who successfully delivered a baby boy before the paramedics arrival. She remained calm while giving after care instructions for both the mother and her baby. Jenny is a 19 year employee and this is her first Stork Award.

Carl Eefsting was presented a Stork Award for providing instructions to help a father deliver his baby boy on November 27th 2021. Carl helped the father remain calm to completely deliver the infant as well as provided post delivery care for the mother. Carl is a one year employee and this is his first Stork Award.

## PEER SUPPORT

OCCDA's Peer Support Team was established to be there for employees who have taken a difficult call or are having an issue in their personal life and need someone to talk to. The team is made up of dispatchers and supervisors who have received Critical Incident Stress Management Training to support their peers through difficult situations. During 2021, the team focused on "gratitude and attitude". During the month of November, the team created a 30 day mental health challenge and displayed a different theme or question each day in the center. These challenges included reading a book, taking a walk outside, eating a healthy snack, telling a friend 3 things you are grateful for, etc. An overall wellness lifestyle helps our staff to stay physically and mentally healthy.

In the early morning hours of October 1st, the night shift telecommunicators received a call from a female who was trapped inside her home that was on fire. Emma Berens was the call taker who provided the caller with life saving instructions on ways to keep herself safe and crawl to a window. Zoann Hallam dispatched several fire departments quickly to the call providing them with critical information regarding the type of dwelling and that it was still occupied. Sal Ambutavicz dispatched the Ottawa County Sheriff's Office to the house and directed Deputy Cassie Tolman to the correct window who ultimately pulled the resident out to safety. Sonya Vander Zwaag and the shift supervisor Shonda Walski assisted in contacting the utility companies, locating a close hydrant, and contacting family members of the victim. The shift's efforts along with on scene action from first responders in fire, police, and ambulance services saved the life of the resident that morning. On November 2nd, the involved telecommunicators and Deputy Cassie Tolman were presented a Life Saver Award in front of the Ottawa County Board of Commissioners and the family involved.

From left to right: Port Sheldon Township Fire Chief Brad Dirkse, Sal Ambutavicz, Zoann Hallam, Shonda Walski, resident Joyce, Sonya Vander Zwaag, Emma Berens, Deputy Cassie Tolman, and Grand Haven Township Fire Rescue Captain Shawn Schreder.

## COMMUNICATIONS TRAINING OFFICER (CTO) PROGRAM

---

The dispatch center is manned with ten CTOs. They attend a 40-hour training course in order to become certified. Our CTOs are trained to use positive and proactive training methodology. Through the guidance of the Training Supervisor and Deputy Director, they provide the vast majority of hands-on training and education for our newly hired staffed. The training program is based off the agencies operational guidelines and procedures. Due to the national staffing shortage, these CTOs have been crucial in helping to fully staff the center.

## CENTER MANAGEMENT CERTIFICATION PROGRAM

Training Supervisor Elvita Lewandowski, Quality Assurance Supervisor Megan Chapman, and LEIN TAC Supervisor Katie Coenen received their CMCP certification after completing the 40 hours of lecture and lab based training with 9-1-1 industry leaders from Michigan, Indiana, Ohio, and Illinois.

"NENA's Center Manager Certification Program (CMCP) is designed to equip recently-hired, newly-promoted, and aspiring PSAP and 9-1-1 Authority Managers and Supervisors with the tools needed to manage their agency effectively"

Continuing education is an important aspect of every highly functioning dispatch center. The state of Michigan requires every supervisor and dispatcher to have 24 hours of continuing education credits bi-annually. Our employees have far exceeded the minimum standard with various training opportunities.

To help with retention and an easier transition for new hires to become fully functional dispatchers, Training Supervisor Elvita Lewandowski has revamped the training program. The program starts with 5 weeks of classroom training which involves becoming Emergency Medical Dispatch (EMD) and LEIN certified. The new hires also take a tour of the county, begin learning to call take utilizing standard operating procedures, and complete all state required training. From there, the new hires will spend 10 weeks with a Certified Training Officer learning to call take before moving onto call taking independently. After completing approximately 3-6 months of independent call taking, they begin the process of learning dispatch training.

In the later half of 2021, Ottawa County Central Dispatch staff was able to continue its tradition of community involvement by attending a variety of events. These events help educate our citizens about our organization's structure, services, and strengthens the bond between OCCDA and the citizens of Ottawa County.

- OAISD Presentation
- Logan Estates Community Picnic
- HPD JR Police Academy
- Georgetown National Night Out
- Holland City National Night Out
- Zeeland City National Night Out
- Beaverdam CRC Community Night
- Allendale Back to School Fair
- Hudsonville Safety Night
- HPD Citizens Police Academy
- Georgetown Fire Open House
- Jamestown Pancake Breakfast
- Blendon Heroes 5K

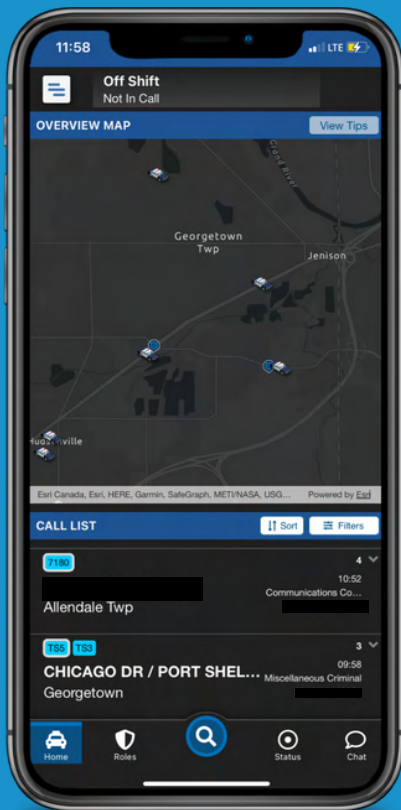

IT Technician Ryan Culver along with Great Lakes Unfitting installed over 130 new modems into every cruiser in the county.

A mobile video wall with the program Useful was brought into the center to monitor our various cameras, weather radar, and activity in the county.

Crewforce and Shieldforce was piloted to police and fire command staff. This is a mobile CAD software allowing command to view active calls from their cell phones.

A color changing neon sign created by Starr Machining was hung on the dispatch floor.

Fortunately, OCCDA staff was able to attend various conferences this year including National APCO in San Antonio Texas, the joint Michigan APCO/NENA Conference in Kalamazoo, and The Navigator conference in Las Vegas. Dispatchers can request to attend conferences to attend trainings based on various topics, listen to motivational speakers, network with other dispatch agencies, and view upcoming technology, products, and services provided by vendors.

Annually, the Michigan chapters of the National Emergency Number Association (NENA) and the Association of Public Safety Communications Officials (APCO) recognizes a caller under the age of 12 who dialed 911 to help save a life, report a crime, or protect property. During the joint APCO/NENA conference in October, a local Georgetown Twp resident, Cayden, was presented this award. Cayden dialed 911 in 2019 and spoke with telecommunicator Crystal Bakker to report his mother was having a life-threatening medical emergency. During the call, Cayden remained calm, provided key information, and helped to comfort his younger siblings during the emergency. Crystal was also recognized for her calm and compassionate handling of the call.
